PROFESSIONAL SUMMARY

Diligent front-end developer with 2 years of comprehensive experience in creating custom websites, skilled in developing user interfaces. Enthusiastic about learning and development with a desire to apply skills on a variety of projects.

Eligible to work without any VISA/Sponsorship as I am on Dependent Visa (Stamp-1G).

JOB OBJECTIVE

To work in a challenging and dynamic environment that will capitalize on acquired expertise and experience and to constantly better myself for contributing to the organization in a significant way.

PROFESSIONAL EXPERIENCE

AUWAVE   Bangalore, India
(Oct. 2024 – March. 2025)

- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Built dynamic and interactive UI components using jQuery, improving user engagement and site usability.
- Collaborated closely with UI/UX designers to convert design mockups into functional web pages.
- Ensured cross-browser compatibility and responsive behavior across different devices and screen sizes.
- Participated in debugging, testing, and performance optimization of frontend features.

WEBANIX SOLUTIONS   Udaipur, India
(Dec. 2022 – Dec. 2023)

- Developed and delivered a user-friendly interface with intuitive navigation and responsive layouts to enhance the user experience and well-versed with converting Figma Designs into code.
- Assisted my project team / senior colleagues in developing and modifying UIs.
- Proficient in developing websites and web applications using React.js, Next.js and Angular frameworks as well as experienced in third-party frameworks such as Bootstrap, Tailwind CSS, and Prime React to enhance the project's interactivity and user engagement.
- Optimized the performance and responsiveness by employing lazy loading techniques and asynchronous data retrieval.

- Participated in team scrum meeting to discuss the project as well as attended progress meetings with client/stakeholders.
- Earned recognition by receiving the certificate for Best Performance.

PROJECTS

1. NM India & Minfert

(Dec. 2022 – June 2023)

- Developed and maintained user interfaces for NM India & Minfert, dynamic E-commerce platforms catering to diverse customer needs.
- Collaborated closely with the client and design team to understand the website requirements, target audience, and overall vision.
- Successfully implemented and optimized responsive design principles, ensuring a seamless and user-friendly experience across various devices.
- Coordinated with UX/UI designers to translate design concepts into functional web interfaces.

2. Dr. Sunny

(July 2023 – Nov. 2023)

- Assisted in the development efforts for the 'Dr. Sunny' web application which is a comprehensive and user-centric platform designed to connect parents with babysitters.
- Contributed to the development of user interface including creating multiple forms, API integration using Angular framework.
- Implemented conditional logic informs to personalize user experience and adapting the interface dynamically based on user inputs and requirements.

3. Eragon

(Nov. 2023 – Dec. 2023)

- Created an immersive parallax effect on this website, utilizing advanced CSS and JavaScript techniques to enhance the site's visual appeal and user engagement.
- Provided ongoing support and maintenance including updates and refinements to continuously improve the project's design and user experience.
- Designed primary and secondary header to give a better look to web interface.

Internship

Websenor (Project: - FASHION)   Udaipur, India

(July 2022 – Dec. 2022)

- Worked as a trainee on my own-project and created a fully responsive single page e-commerce website 'Fashion' using Next.js framework and developed add to cart, product fetching, order process and recently viewed products pages.
- Collaborated with my senior developers on day-to-day basis and learned User Interface side and logic part.
